

C. P. Jones Appointed Mayor At Village Council Meeting

Jones and Symington Interview N.W.U. in Regard to Gas in Irma

Meeting of the Council of the Village of Irma was held in the Village office on the 6th day of March, 1950 at 8 p.m.

Mr. Symington, duly elected Councillor, subscribed to the Oath of Office. Councillors also present were Messrs. C. P. Jones and W. N. Frickleton.

Frickleton, that C. P. Jones be Mayor for 1950.

Mr. C. P. Jones took Oath of Office.

Jones—that Councillor W. N. Frickleton be deputy mayor for the first six months.

Frickleton—that Mr. Symington be deputy mayor for the second six months.

Minutes of the previous meeting were read and adopted as written on motion of W. N. Frickleton.

Bylaw No. 160 for the purpose of appointing A. C. Charter as Secretary-Treasurer and Assessor. Subject to the approval of the Minister and the appointment of Dr. J. D. Wallace as M.O.H. for the year 1950. Passed first, second and third reading.

Symington—that the Mayor and Secretary-Treasurer be and are hereby authorized to sign blank form L.F. 22 Bank of Montreal for the Village of Irma.

Jones—that the regular meetings of the Council be held on the second Thursday in every month.

Symington—that Messrs. Patrick, Dunnean, McClary, McClary and King be appointed auditors for 1950. Subject to the approval of the Minister.

Jones—that the assessed valuation of land, buildings and improvements valid in all respects in the year 1949. That such assessment shall be adopted as the assessment of the Village of Irma for the year 1950. Subject to the exception of all improvements, and new buildings.

Section 18. (2) Chap. 157 The Assessment Act 1942.

Frickleton—that the remission of the Irma Municipal Tax for District No. 55 for the year 1950 amounting to \$1027.30 be accepted.

Correspondence read and dealt with from: Dept. of Public Welfare, University Hospital, Edmonton and Dr. J. D. Wallace, M.O.H. (All filed.)

In the matter of certain recommendations as contained in the minutes of the Annual ratepayers meeting.

Symington—that an additional light be installed at certain point on King Street as indicated in the minutes.

Jones—that the council purchase 6 additional traffic stop signs and install these where most needed.

Messrs. Jones and Symington reported result of interview with N.W.U. officials regarding the possible installation of gas in the village.

It was agreed that certain improvements concerning the nuisance grounds be attended to as early as possible.

Bylaw No. 158. Providing for the imposition of a business tax, as approved by the Minister, Feb. 23, 1950, passed first, second and third reading.

Bylaw No. 161 to provide for the repeal of Bylaw No. 119 relating to the imposition of a personal property tax for Municipal purposes as amended by Bylaw 157, passed first, second and third reading.

Financial Statement presented. Receipts for February \$51.90. Disbursements \$509.42. Bank balance as at February 28, 1950, Bank of Montreal, Municipal Account, \$4588.73. Agric. Trust \$422.01. Cemetery Trust \$142.02.

Frickleton—that that Financial Statement be accepted and that the following accounts be passed for payment.

Dawson.....\$125.00
Charter.....85.25
James Hedley.....2.00
Carl Anquist.....26.07
UGG.....50.00
Kine's Printer.....60.
Dr. J. D. Wallace.....25.00
K. Coffin.....6.00
Irma Times.....37.70
Land Titles Office.....256.82
Alta. Telephones.....4.25

Mixed Spiel All Over

Born in a blizzard on February 27, stricken by bad roads on February 28, and afflicted by warm weather on March 1, the Mixed Bonspiel, revived by cold Arctic air on March 7, grew to adult proportions on March 8, 9 and 10 and died gloriously in contest at 11:30 p.m. March 11. In its wake it has left some sincere mourners and innumerable post mortems, plus proof conclusive that any one can, and everyone does, miss that broom.

Remarkable during the two weeks' protraction of the event, was the luck of the McFarland rink, beaten only once in nine games. That redoubtable old veteran, A. C. Milne, ably supported by I. S. Reeds, Malcolm Frickleton (another old veteran), and Mrs. A. Darks humbled the proud McFarland foursome to win first in the No. 2 event. (Readers please note that we were tired, that the ice was poor, that the rocks were either too sharp or too dull, that they wouldn't draw, and that our feet kept slipping just as we threw our rocks.)

Prizes will be donated at the annual social evening with which the club will close the season. The date will be announced in the near future. In the meantime may the Kingsway weather-bird wake up some fine morning to find himself unburned to a crisp, while the woman on the Supersoft mattress is so uncomfortably warm that she can't even groan.

The winners of each event were:

No. 1 Event
McFarland.
No. 2 Event
Milne.
Consolation
Frickleton

Hockey News

On Wednesday, March 8, the Irma juveniles journeyed to the Wright to meet the latter's hopes, the Harvesters, in a juvenile hockey fixture. A scant crowd took in the game which featured hot tempers and hot stick work.

Frickleton opened the scorng for Irma with a neat solo rush about midway through the first period. On this goal the afore mentioned took the puck around the opponents net and parked it between goalie Firkus' legs.

Carter for the Harvesters tied the score shortly after the start of the second canto. This also could be credited to Irma because it came off one of the locals and into the corner behind the surprised En in the Irma ca.

Frickleton again put the visitors out in front with Masson and Dawson assisting. Then Carter again hit the hemp for Wainwright with a high hard shot that just caught the corner, a very neat goal. Minutes later Hockett put Irma ahead once more. Fe scored t-i-s one while lying on the ice and he hooked it around the corner. The period was marked by penalties to both sides and a little fencing, but nothing serious developed.

The only goal of the third period was by Masson of Irma, from Frickleton. Both teams settled down to heads-up hockey but neither side could break through for a goal. Much credit should be given to Walter "Turk" Enger in the Irma goal. He made many timely saves.

The above teams have met on three previous occasions the scores being: Irma 4; Wainwright 4; Irma 6; Wainwright 3; Irma 0; Wainwright 1.

Lineups: Irma: W. Enger, Simmermon, Tomlinson, Dawson, Frickleton, Masson, Hockett, Kennedy, Quinlan; A. Enger, O. Lovig, Jones, Pierce.

Wainwright: Firkus, Mackenzie, Rasmussen, Carter, Murrav, MacGowan, Sheffield, Harley, Marsden, Coffield, Madkins.

The Regular Infant and Pre-School Clinic will be held at the Irma Rest Rooms on Friday, Mar. 24.

St. Mary's W.A. will hold a sale of Home Cooking, etc., in the Co-op store on Saturday, March 18 at 3 p.m.

Legion Social Well Attended

The local branch of the Canadian Legion held its annual meeting in the Legion hall on Tuesday, March 7. Although a smaller attendance than was hoped for turned out, a very successful meeting resulted, and a new slate of officers for the coming year were elected as follows:

President: V. Torrance; Vice-President: R. E. Congdon; Secretary, K. Coffin; Treasurer, C. Milne; Sgt. at Arms, E. Fuder.

It may be of interest to note that this year the executive council has been enlarged to five members for the sake of greater flexibility and efficiency, and to distribute the work more evenly throughout the executive.

Plans are already being laid for the coming year and with the keen interest already evident, much progress is anticipated.

A word here to all veterans of the district—the Legion is still primarily a veterans' club; why not make it yours?

The meeting in the Legion hall was followed by a social evening in Torrey's hall where Legion friends spent a friendly evening playing cards and chatting at the close of which a very appetizing lunch was served.

With Comrade Herb Larson as Master of Ceremonies, the evening was brought to a very successful close as he called upon each of the newly elected officers for a few words.

Comrade Fred Jack of Kinsella who is a regular member of the Irma branch also addressed the gathering in a few well chosen words, as did visiting Comrade Jack McKee of the Kinsella branch, thanking us on behalf of Mrs. McKee and himself for the enjoyable evening.

It is hoped that more of these enjoyable get-togethers may be held in the future.

Kinsella and District News Items

Mrs. Smogard of Edmonton was a recent visitor at the home of Mr. and Mrs. E. Simmonds.

Mr. and Mrs. J. Stevens of Sedgewick were visiting at the home of Mrs. Stevens on Monday.

Mrs. J. Stevens was visiting relatives at Irma and Camrose last week.

Mr. B. C. Carpenter and George are attending the Calgary Bull Sale. Mr. Carpenter took three pure bred Perforers to the sale.

Mr. and Mrs. F. Jack and Mr. and Mrs. J. McKie attended the Legion Social evening at Irma on Tuesday evening.

Master Harry Bilo entertained a number of his friends on Saturday, the occasion being his fifth birthday.

Please Remember

The St. Patrick's dance on Friday evening, March 17 being held in the Memorial Hall on Mar. 17. Good music and prizes. Come and join the "Irish" and have a good time.

NOTICE

We wish to announce that Central Garage is now operating under a partnership, Haakon Larson having taken over part ownership with W. Symington. We also wish to advise the public that we are now the Oliver Dealer for Irma and district. We will do our utmost to supply your every need whether it be Oliver parts or any line of new machinery, and will be at your service at any time.

CENTRAL GARAGE, Irma.

IN MEMORIAM

In loving memory of the late Edward John Jones who passed away March 14, 1949.

The blow was hard, the shock severe. We never thought his death so near. And only those who have lost can tell.

The pain of parting without a farewell.

Ever remembered by his wife and family.

Glen-Coa Gleanings

Mr. and Mrs. M. Jacobs of Killam were guests of Mrs. Lindquist last week while Isaac was in Edmonton.

Miss Elsie Allen of Strome is helping her sister, Mrs. A. Badry, out by looking after baby Donald while little Marilyn is so ill at Hardisty hospital. We understand Marilyn is making good progress.

Mr. Pete Spring went to Medicine Hat for a week lately because of his eldest sister's severe illness.

Miss Solveig Steffensen left Wednesday of this week for a trip to Norway.

Last Sunday evening a cavalcade of cars could be seen winding their way by circuitous route, much on the rough side, towards the Steffensen home. You guessed it. A surprise farewell gathering on Solveig. A pleasant social evening was spent. The highlight being the showing of colored moving films which Solveig had taken herself. After a splendid lunch the guests gathered in a circle around Solveig to sing "For She's a Jolly Good Fellow," and "Blest be the Tie that Binds." An appropriate Scripture reading and a prayer for Solveig as she prepared to leave us made us all thoughtful. After a few words of thankful appreciation from Solveig for the evening's fellowship and the many good wishes of her neighbors the evening was brought to a close as all sang heartily "God be With You Till we Meet Again."

Easterly Echoes

Mr. and Mrs. Ralph King and family were visitors at Carrot Creek last week-end.

Mr. Gordon Fenton and Rita motored to Edmonton on Friday. They were accompanied by Miss Shirley Brown and Mr. Bozak.

Mrs. E. Fenton received word that her mother Mrs. H. Miskimons had had the misfortune to fall and fracture her arm.

A special meeting of the Resberry FUA was held on Wednesday to discuss the five year pool wheat price.

The first prize winners at a W.I. 500 party held recently at the home of Mr. and Mrs. W. Sanders were Mrs. C. Steele and Mr. R. Dempsey.

Mrs. E. Fenton left Monday to attend the Right Worshipful Grand Lodge of the LOBA which is being held in Calgary this week under the direction of R. W. Grand Mistress Mrs. E. W. Carter.

Mr. and Mrs. A. Len McFarland and family expect to move to Wainwright in the very near future.

Mr. and Mrs. Gerald Allen have moved back to their farm after spending the winter in Wainwright.

Jarrow News

Mrs. H. G. Smith and Faye accompanied Mr. and Mrs. J. M. Holt when they returned to the city last Wednesday.

Mr. M. McCune is back at the store handling out groceries as fast as ever after having spent a day or so at the Viking hospital with a toe infection.

A number of friends and relatives gathered at the Gilbert Lovig home last Saturday evening March 11 to congratulate and bring best wishes to Mrs. Lovig on the occasion of her birthday. The evening was spent in playing cards after which a sumptuous lunch was served and enjoyed by all.

Mrs. H. A. Whidden and Mrs. W. Jamieson are spending a few days in Edmonton where they have gone for medical treatment.

Cecil Lockhart and Vance Shipley recently went to Edson for a load of slabs. While crossing a creek they had the misfortune to overturn their load which necessitated a great deal of time and effort before they could proceed on their home-ward journey. But their troubles weren't all over then, as the nearer home they got the more snow they encountered. After shovelling their way out of one snow bank only run into another, they finally left their load a few miles from home and came in on "shinks ponies."

Commandos Win Craig Cup

Thursday, March 9 Wainwright Commandos journeyed to Vermilion for the third and we had hoped the final game for the Craig Cup. Vermilion seemed to have their rabbit feet in all of their pockets as the game ended in a 6-2 victory for Vermilion.

Tuesday, March 14, Vermilion was at Wainwright. The game was fast but a little one sided as the Wainwright squad came out on top with a 10-2 victory.

This indeed was the final and the Craig Cup is in the hands of the Wainwright team. I must say that the boys showed a very good brand of hockey this winter and was enjoyed all through the series.

This is not all the hockey this winter, watch for posters and listen to the Sport Cycle and you will here of more games. Wainwright would like a home and home series with Ponoka Stampers. If it is agreed, the first game will be Wednesday, March 23 in Wainwright.

WINNIPEG, March 7—Special railway fares to Edmonton for the Spring Livestock Show and sale from all stations in Alberta are announced today by R. H. Powers, vice chairman, Canadian Passenger Association. The low rate of one way fare and one half for the round trip will be good in all classes of accommodation.

Tickets will be on sale from March 20 to 23 inclusive, and on March 24 for trains arriving Edmonton not later than 4 p.m. Returning tickets will be good until March 25. If there is no train serviced, however, on March 25, tickets will be honored on the first available train.

School Board Hold Meeting

Minutes of the last meeting were read: Moved by Mr. Dixon that minutes of the last meeting be adopted as read. Cd.

Between the hours of ten and twelve a.m. discussion was given to the budget for the year 1950. Representatives of the Wainwright M.D. No. 61, the Council of the Town of Wainwright and Edgerton Village Council, were present during the discussion.

Moved by Mr. Hill that the matter of the sale of a coal shed at the Ribstone School be left in the hands of Dr. Folkins. Cd.

Moved by Mr. Lawson that the question of Co-operative Purchasing of supplies for school divisions be tabled until April 7 meeting and further that this same topic be placed on the agenda of the A.S.T.A. Zone Branch meeting to be held on Monday, April 3, 1950 when Mr. A. G. Andrews will be present. Cd.

Moved by Dr. Folkins that we give the question of conveyance referred to in Mr. G. Newell's letter further consideration if road conditions do not improve in the near future. Cd.

Moved by Mr. Hill that the following budget representing expenditures for the year 1950 in the amount of 281,000.00 be adopted. Cd.

Moved by Mrs. McLeod that the Supt's report be adopted. Cd.

Moved by Mr. Hill that the Dormitory Report for the month of February be accepted. Cd.

Moved by Mr. Dixon that we adjourn. Cd.

Next meeting of the Board to be held on Friday, April 7, 9 a.m.

Fertilizing Grain Crops

Some Westerners are of the opinion that our prairie soils do not, and never will, need fertilizer. Others insist that the use of commercial fertilizers will eventually ruin the soil. However, the fact is that, with each passing year, more and more grain growers in Western Canada are using commercial fertilizers with beneficial results.

Plant Growth Requirements. The essential requirements for the normal growth of plants are sunlight, air, moisture, temperature and plant food. Of these, plant food is the one growth factor over which farmers can exercise a measure of control. To maintain the basic plant foods (Phosphate, Nitrogen and Potash) at a satisfactory level in our prairie soils, effective use can and should be made of commercial fertilizers.

Fertilizer Tests. The results of extensive fertilizer tests in Western Canada have shown that profitable increases in yield result from the application of phosphate fertilizers. Nitrogen is of secondary importance, except in the grey-wooded soils, or where heavy stubble or trash is being incorporated into the soil. In the more humid regions, the application of 25 lbs. of 11-48-0 fertilizer usually results in an increase in yield of about 6 bushels, while an increase of 7 to 8 bushels per acre can be expected where 50 lbs. of 11-48-0 are applied.

The proper use of commercial fertilizer results not only in higher yields, but in better weed control, reduced root rot damage, and earlier and more uniform ripening of grain crops. It should be clearly understood, however, that large quantities of fertilizer do not of themselves guarantee high yields. The plain fact is that, in order to maintain soil fertility, effective use must be made of crop rotations, which include grasses and legumes, good cultural practices, as well as commercial fertilizers. In the future, however, fertilizers will play an increasingly vital part in the effective management of our prairie soils.

To The Electors MD Minburn No. 72

As I have been nominated as a Candidate in the election for Councillor in Division 3 of Minburn Municipality No. 72, I will appreciate the support of any voter who feels that I am the Candidate to represent the people of that Division in the Council. If I am elected I will serve one and all to the best of my ability. Yours for their interests,

W. D. JOHNSTON.

Vancouver Was Scene Of 21st Annual Macdonald Brier Curling Championship

City of Vancouver Went All Out To
Entertain Curlers and Visitors

(By H. G. T.)
(From The Viking News)

The new Kerrisdale community arena proved to be an ideal setting for the twenty-first Macdonald Brier Canadian championship curling competition held in Vancouver, B.C., March 6 to 9, where rinks representing ten provinces of Canada competed for the highest honors that the game of curling bestows upon the rink that wins the coveted Macdonald Brier tankard emblematic of the championship of the dominion and which no doubt represents the best in the world.

Just a word about the Kerrisdale arena. The Kerrisdale district is practically a new subdivision of the city of Vancouver. The mayor of Vancouver, in his opening remarks at the Brier events stated that the Kerrisdale arena was a community enterprise and was not being paid for out of taxes by the city, but by subscriptions from the citizens of the Kerrisdale district. The \$350,000.00 project finished this year was certainly a credit to the Kerrisdale community. It was built as a hockey arena, skating and for other community purposes. It features intermediate amateur hockey leagues, figure skating, general skating for young and old, conventions and recreation of all kinds. The citizens are very proud of it and what it is doing for the young folks. From what we could gather there is more skating and other winter sports held there than in any prairie town or city. Of course it has to have an artificial ice plant. The arena has a seating capacity of about 2800 but at the Brier they squeezed in another 1000 people, many of whom had never seen a curling game before.

The Brier competition gave a great boost to curling in Vancouver and other large centres in B.C. In fact a new five sheet curling rink has also been built in the same area costing approximately \$100,000.00.

Writing briefly about our trip to the coast city, I accompanied Lloyd C. McIntyre, who is a well known as a top notch curler from coast to coast, having been a member of the Cliff Manahan rink which won top honors on two occasions, and has been named as the all-time all-star lead, which curlers recognize as being some honor. We boarded the "Curlers Special" which stopped for us briefly here on Friday, March 3, at about 11 a.m. carrying the championship rinks from P.E.I., Nova Scotia, New Brunswick, Quebec, Northern Ontario, Ontario, Manitoba, Saskatchewan, and joined by the Alberta rink skipped by Cliff Manahan, in Edmonton.

The trip to Vancouver was rather uneventful except that there were rumors that the "Curlers Special" might be held up by slides, washouts, or what have you. But these rumors happily proved false and the special arrived in Vancouver at 2:30 p.m. on Saturday, March 4. In the morning hours after passing Kamloops we observed deep snow drifts in and around Boston Bar, B.C., where our former townsman Bill Brown operates an auto camp. The ice in the Fraser river was breaking up and the water running down from the mountains. Yet there were drifts left along the railway tracks at least ten feet high. We could readily see that these drifts were a source of water that causes floods in the Fraser Valley, some hundred miles distant. Some measures have been taken to prevent these floods by building and strengthening dikes all along the lower part of the valley. Coming towards Chilliwack, home of our former CNR agent, J. L. Dodds, the snow drifts had disappeared, but the lowlands were covered with water. We saw pigs wallowing in mud and water and the pig sheds surrounded by water and cattle looking for the odd blade of green grass just showing up here and there on the higher lands.

Coming closer to Vancouver city, the snow was all gone and Lloyd pointed out to me that some gardeners were already out doing their stuff. Rain clouds and fog swept the skies as we neared Vancouver and the sight of people carrying umbrellas impressed us as an unusual sight at this time of the year for prairie dwellers.

Upon detraining at Vancouver CNR station the curlers and supporters were met by two pipe bands and then passed through an arch of brooms held by Vancouver's most beautiful young ladies, which was very thrilling, of course. Outside the station was an improvised platform where Mayor Thompson and dignitaries of the provincial government gave speeches of welcome, after which busses and cars were provided to form a procession to the Vancouver Hotel headquarters.

There was considerable entertainment Saturday, Sunday, Monday, and Tuesday. Saturday evening there was a civic reception at the Stanley Park pavilion; Sunday a bus trip through Stanley Park, curlers church service Sunday evening, after which the Brier trustees gave a dinner to the curlers and visiting supporters. Then to bed.

Monday forenoon was set aside for tune up games for the competing rinks. Lloyd had the honor of skipping a practice rink against the Saskatchewan rink in a six end game and nosed them out in the last end by a perfect draw. My chest swelled up a couple of inches and I had to go and buy a new and bigger hat!

In the afternoon there was another parade to the arena where there was some colorful opening ceremonies, with pipe bands leading the contesting rinks around the arena and introduced from each province. After that the curling started in earnest and didn't end until Friday forenoon when the ties for second place were played off.

Tuesday evening the main Brier banquet was held in the Vancouver Hotel. Senator Haig of Winnipeg presided. Speeches of welcome were made by Chief Justice McFerris of B.C., and Chief Justice Thane Campbell of P.E.I. All curling teams were introduced individually. The Vancouver Chuck Wagon radio gang furnished a good program. Among other highlights were social events provided by the Bank of Toronto, Bank of Commerce, Bank of Montreal, The Harwood Ltd., and U.D.L. Ltd. during the week.

At the Brier banquet souvenir books of the Brier competitions during the past twenty-one years were supplied and I was again proud to see the names of J. L. Slavik, Vince Slavik, Ken Walker and Cecil Runyon of Viking, mentioned as the rink that represented Alberta at the Quebec Brier competition held in that city in 1942. The 1943, 1944 and 1945 competitions were not held on account of the war. The Billy Rose rink from Sedgewick won top honors at Saskatoon in 1946 so from that I deduct that we have some of the best curlers right here in our own district. Ain't that something?

Speaking of the curling it was of a high calibre but all shots were not made by any means. The crowd had their favorite rinks and cheered lustily when some skip or member of his rink made a good shot at a crucial time in the game. The rinks from the eastern provinces had made great progress and were real contenders except the rink from P.E.I. Quebec sent a real good rink that defeated the highly touted Manitoba rink. The Manahan rink from Edmonton started out well by winning two games the first day but dropped the second day, their final standing being 6 wins and 3 losses. In the tie for second place, they lost out to Manitoba. With Cliff Manahan's reputation as the master curler, his games were always followed by a large gallery.

Boyd Gray, Jr., and Leslie Peterson, both young budding lawyers now in Vancouver, paid us a call at the Hotel, and at the curling rink we exchanged greetings with Frank Wright, formerly of Viking, Walter Marlow, W. J. Haynes, former hotel man at Sedgewick, Bill Washburn, of Wainwright, Tom Hoskins, who used to throw a mean rock in our own rink, and many others we had the pleasure of seeing once again. Tried to contact J. L. Dodds at Chilliwack but our trip to that compact and growing town did not materialize.

It was a busy and pleasant week, folks, at the coast.

Final Brier Results

Final standings in the Canadian curling championship bonspiel:

	W	L
N. Ontario	7	2
Ontario	6	3
Alberta	6	3
Manitoba	6	3
British Columbia	5	4
Quebec	5	4
Nova Scotia	4	5
Saskatchewan	3	6
New Brunswick	2	7
Prince Edward Island	1	8

C.N.R. PROMOTES WESTERNER

S. F. Dingle has been appointed vice-president in charge of operation for the Canadian National Railways. He will head the departments which formerly were under the direction of the late N. P. Walton, executive vice-president. Mr. Dingle started his railroad career in Winnipeg and later saw service at Dauphin and Edmonton where he was general superintendent in charge of the Alberta district. In 1946, he was made chief of transportation for all Canadian National lines, with headquarters at Montreal, and in 1948 was appointed assistant vice-president of operation, the post which he has occupied until the present time.

WE ARE KEEPING OUR PROMISE

Two months ago when coal shortages forced us to reduce passenger train services, Canadian National promised that all these trains would be put back into normal service as soon as conditions justified it. Now we are keeping our word.

Full CNR Train Service Restored

As from Wednesday midnight, MARCH 8th, all trains in Canada that stopped running because of the coal shortage go back on their normal schedules.

To you, the public who gave us your understanding co-operation during this trying period, we extend our grateful thanks and say to you that the Canadian National will, as over many years, provide you with fast, reliable, up-to-date transportation.

Al Gordon
President

CANADIAN NATIONAL RAILWAYS

In The Legislature

By W. Masson

The Hon. N. E. Tanner in reporting to the House stated that two aeroplanes being used by the Government had taken 703 coyotes in one month. Agreements have been reached with two organizations to continue a program of warring on these predators. Under this set up the Government will pay 75 per cent of the cost and the rest will be borne by the local association.

Answering the CCF charge that they had forced the Government to set up Crown Reserves in 1947, Mr. Tanner told the House that the first Crown Reserves were set up in 1937, just two months after he became Minister. Amendments had been made to the Crown Reserves again in 1946 and 1947 and would be made again when developments made it necessary, said Mr. Tanner.

In reply to the charge that only small men could get into the oil business, the Hon. Mr. Tanner pointed out there are more than one hundred Canadian companies operating in Alberta today, made up entirely of Canadian people. Mr. Roper had said previously that the million and a half dollars the Government received for a quarter section was only peanuts. He argued that the four million dollars the Government received for three quarters would over the next forty years yield the oil Co. 48 million dollars. The Hon. Mr. Tanner pointed out that the four million dollars that the Government has now is equal to 8 1-3 per cent royalty on Mr. Roper's estimate of 48 million dollars, and it has been paid in advance, some of it 20 to 40 years in advance. Add to this the 12 1/2 per cent production royalty and the Alberta people are getting 20 5/6 per cent royalty without putting any investment into the picture. The price of crude oil will not continue at its present high level when more production is reached and markets are found, so that the Government is even better off by having this sum in advance. 3 per cent interest on the money received from such a quarter section would yield \$45,000 a year

forever, while the well will not last for more than twenty to forty years.

The Minister pointed out how back in 1939 he and others had gone to Eastern Canada and Great Britain in an endeavour to get them to invest in Alberta's oil development. Generally they had refused to do so and so American capital came in and started the job. 40 per cent of today's oil production is coming from privately owned lands from which the Government does not receive one cent in royalty.

Premier Manning in his Budget gave the figures to show that the direct financial assistance to MD's is \$14,748,600. When you add to this the part of the cost for indigent relief, old age pension, blind pensions, mothers' allowance and child welfare services taken over by the province from the municipalities, it makes a grand total of \$16,525,600 of assistance to MD's. This is more than 32 per cent of the entire estimated provincial expenditures on Income Account.

This is definite evidence that the Provincial Government has assumed much of the financial responsibility of the Municipalities. In addition to this, 5 million dollars will be made available to municipalities on a loan basis for self-liquidating projects. This will be at an interest rate of 2 per cent. Further, an additional sum of 12 million dollars will be made available over the next four or five years as a revolving fund to assist School Districts in capital construction. Part of this will be as an interest free loan and a part of it will have the same effect as an outright grant.

In dealing with a resolution urging a National Coal Policy for the Dominion, Mr. Gordon Taylor pointed out that Canada last year imported nearly 60 million tons of coal, most of which was no better grade coal than produced in Alberta. He pointed out that the Dominion Government are aiding the Nova Scotia coal mining industry to the extent of a 10 million dollar loan, but were not prepared to assist in finding markets for Alberta coal.

Viking Items

A Viking resident John J. Loughlin, has been acclaimed in Edmonton for outstanding performance in the Edmonton Inter-collegiate Hockey League. The local collegian, playing at forward for St. Anthony's College in Edmonton, was a king-pin in his team's brilliant win over Concordia College for the league championship at Edmonton Gardens Saturday night.

The nephew of Clem Loughlin, one of Canada's great hockey figures, Jack has the grace, drive, and hockey "know-how" that stamps him with championship calibre. St. Anthony's College, in awarding major letters to the Viking lad in both basketball and hockey pointed to Jack's sportsmanship, ability, and leadership in studies. "Here is an all-round collegian of whom we and his home town, Viking, can be justly proud," said Fr. A. Sebastian, rector.

Rinks composed of Brother Elks from Mundare, Willingdon, Vermilion, Holden, Viking and Verreille took part in a bonspiel held in the latter city last Sunday.

Representing the Viking Elks were L. Dobry, Stub Trueman, Marion Pisciella and Alvin Golka, who won out in the finals. They brought home a brand new trophy donated by the Vegreville Elks and also four individual cups. The boys said that a good time was had by all.

Adolph Johnson has returned from the coast where he had been visiting since New Year's. He stayed at Seattle for some time and also at Mike Johnson's home in Vancouver, and stopped off at Boston Bar to visit with Mr. and Mrs. Bill Brown. He had an enjoyable visit with friends and relatives while away.

Mr. and Mrs. Elmer Swanson of Edmonton were visitors at Viking and Kinsella over the week-end at the homes of Mr. and Mrs. C. Swanson and Mr. and Mrs. J. F. Murray.

Miss Vivian Farquharson of Edmonton enjoyed the week-end here with relatives and friends. Mr. J. J. Murphy is attending the annual meeting of the Horse Co-operative Association being held in Edmonton this week.

J. A. Giebelhaus, well known citizen of Holden, was a caller in town on Monday, and paid a call to this office. Mr. Giebelhaus operates a garage in Holden and also does some auctioneering.

Mr. and Mrs. Vince Slavik attended the Locker convention held in Calgary the first of this week. Mr. and Mrs. Tollak Hafso, Irene and Noble, of Edmonton, were recent visitors here with friends and relatives.

World of Wheat

Redman and Saunders Wheat— Farmers are enquiring about the new rust-resistant wheats—Redman and Saunders—which are now available for farmers' use. Redman was made by the Dominion Laboratory of Cereal Breeding, Winnipeg. It is a cross between Regent and Canus. It is resistant to stem rust, bunt and black chaff and moderately resistant to leaf rust. Redman matures about one day earlier than Thatcher and in some areas gives a yield higher than Thatcher. Saunders was made at the Central Experimental Farm, Ottawa. It is a cross between Thatcher and a selection named 44-7. Saunders matures two days earlier than Thatcher and three days earlier than Red Bobs. In most places Saunders yields higher than Red Bobs, which will be degraded to No. 3 Northern on August 1, 1951. These new varieties, of course, are likely to behave differently in different districts. It would, therefore, be a good plan for farmers who wish to try out these new varieties to buy a small quantity of either Redman or Saunders and sow it under the same conditions as the variety they are now growing. Then farmers can see with their own eyes which would be best for them to use in the future.

—A NEW WHEAT—

A new wheat for Canada has been recommended for licensing by the Associate Committees on Grain Research, Plant Breeding and Plant Disease at their recent annual meeting. The new variety known in Canada as CT 509 originated at the Minnesota Agricultural Experiment Station and is known in the United States under the name of Lee. Lee is a bearded variety of spring wheat resistant to leaf and stem rust. It is somewhat higher in yield in Canada than any other variety, and with maturity about the same as Thatcher. It has short, medium strength of straw, and is equal to Thatcher and Marquis in milling and baking characteristics. Lee is a cross between Hope and Timstein. In Canada it is found suitable for Manitoba and Eastern Saskatchewan, but probably not suitable for Western Saskatchewan and Alberta. It will be about two years before any seed of Lee is available.

Another U.S.A. variety CT 809 was not recommended because of inferior quality in milling and baking characteristics.

The Committee considered at length the case of Red Thatcher and reviewed the tests made for several years past. The Committee unanimously decided not to recommend this variety for licensing as it is found to be inferior in quality in milling and baking values.

MD No. 73 ACCREDITED T.B. FREE AREA

The Hon. D. A. Ure has announced that according to advice received from the Veterinary Director General at Ottawa, MD No. 73 is now a fully accredited T.B. Free Area. Its status as an accredited area will be effective until September 1, 1954.

Such areas are established under the authority of the Veterinary Director General. Before a Municipality can become a T.B. Restricted Area, a petition must be signed by at least two-thirds of the cattle owners in the Municipality. This petition is submitted to the Provincial Minister of Agriculture, who approves it and forwards it to the Veterinary Director General. When the Veterinary Director General accepts the petition the Dominion Dept. of Agriculture arranges for testing of cattle within the area.

Since 1939, over a quarter of a million cattle have been tested in this Province and testing has been completed in seven Municipalities. One other Municipality was declared a Restricted Area last fall, and testing in this area is now under way. "The ultimate objective is to have the whole Province a T.B. Restricted Area," said the Minister, "but for the present the intention is to complete a block from Edmonton to Calgary with existing restricted areas as a nucleus." "Tests to date have shown Alberta particularly fortunate in the low incidence of tuberculosis in cattle," said Mr. Ure. "Although over one-quarter of a million cattle have been tested, an average of only two reactors per one thousand has occurred." Mr. Ure further stated that petitions are also being circulated in all Municipalities as far south as Crossfield, and it is hoped to go as far as Calgary in the near future.

Have a cleaner, more comfortable home. And have time to spare for those extra things you want to do.

Heat and cook with oil and banish time wasted tending fires, and extra cleaning caused by ashes and dirt. Use Esso Domestic Heating Oil in space heaters, floor furnaces, automatic oil burners, hot water heaters, stoves, stock trough heaters and chicken brooders.

See your oil burner equipment dealer for installation and service. Contact your nearest Imperial Oil Office or Agent for your supply of dependable Esso Domestic Heating Oils.

SIGNS OF LIFE
HEED**

Every thinking person will concede that the control of motor traffic is one of the nation's greatest problems. The problem is greater than fire, for it annually takes more lives and destroys more property; greater than crime, for it involves all humanity. Every man, woman, child or infant that walks or rides is a possible victim every minute he is upon the public roadway or street.

While this is written we have all sizes in these popular garments. 10 oz. sanforized denim. Pants, 29 to 38. Priced at **4.25**
Jackets, 36 to 44. Priced at **4.25**

J. C. McFARLAND CO.

Irma

Alta.

Locals

Mr. Jim Wood who will begin his 91st year of life on March 30 is already busy with plans for his garden. Mr. Wood had a new garden plot broken up last fall and expects great things from this new land.

Mr. and Mrs. N. Shultz and small daughter have left Irma to take up residence at Gereauville, Alta.

Don't forget that five of our Irma boys play regularly with the Wainwright Commandos.

St. Mary's W.A. will hold their monthly meeting on Thursday, March 23 at 3 p.m. at the home of Mrs. G. T. Targett.

Could we all use our imagination and classify spots before our eyes caused by the bright March sun as "flying saucers"? Our up to date town always likes to see the latest.

Mr. R. B. Kirkman is a visitor to Calgary this week.

Mrs. S. Magrath is now at Wainwright visiting with her daughter Mrs. G. M. Folt.

The regular Infant and Pre School clinic will be held at the Irma Rest Room on Friday, March 24.

When you spring clean those cloth closets, don't forget the WMS used clothing drive. Clothing parcels to be left just inside the back door of the United church.

We understand that Mr. Ralph Lukens is now working at Killam and not at Loughheed as we erroneously stated last week.

The streets of Irma are in an extremely icy condition and are a menace to life, limb and the dignity of man—to say nothing of women. Unless they are sanded, the streets we mean, we citizens will have to que up at the blacksmith shop to be shod.

Visitors at Irma recently were Mr. and Mrs. A. E. Scott and Evelyn of Daysland and Mr. Larson of Edmonton.

Little Maureen Gunn who was in hospital over the week-end is much improved and home again.

Mrs. Albert Glasgow is taking over at the Irma public school while Miss Steffensen is holidaying in Norway.

Mrs. Leo Robertson is an Edmonton visitor this week.

Mr. H. H. Currie is making a good recovery after his serious accident last December. He is expected home this week.

New Device Tests Crop And Automatically Grades It

(From the Edmonton Bulletin) WASHINGTON, March 4.—Dr. Amihud Kramer, professor in horticulture, at University of Maryland, has helped develop "a mechanical umpire" to test food.

Mechanized thinkers can tell whether a split pea is grade A or B, if an apple is fit to eat or would make a good pie.

All of this is calculated to help the farmer, the canner, and the housewife.

The machines grade the stuff without any help from humans.

Research developments were turned over to the U.S. Department of Agriculture with no strings attached in the way of patents. It's public domain from the start.

The farmer benefits because he takes his stuff to the market and gets paid for whatever "grade" he hauls in.

Take sweet corn. The farmer hauls his stuff into the driveway and a man takes a couple of sample ears. He whittles them off and puts the kernels into a cup and puts the squeeze on 'em. Then he takes the juice and puts it into a test tube. If the tube fills up high,

the farmer has brought in sweet, young corn. He gets graded for good stuff and is paid off handsomely.

The canner learns, right there, that he has a good corn on hand and decides to deep-freeze it by the ear for a better profit. The farmer makes more—and, in the grading process, the housewife knows what she's paying for.

A simple little thing which looks like a big screwdriver is geared exactly to the pressure you would use if you were about to bear down on a vegetable on your dinner plate.

Dr. Kramer bore down on a cooked sprig of asparagus. The instrument balked. The vegetable was too tough.

"See," said the scientist, "if you dug a fork into something like this, you wouldn't eat it. Therefore it shouldn't be on the market. Not for grade A prices anyhow."

There are other gimmicks which will tell you whether an apple ought to be put on the market immediately or will keep well in storage.

Proposed County System Outlined to Legislature

Alberta's proposed county system was outlined in the Alberta legislature Monday by Hon. C. E. Gerhart, minister of municipal affairs, who introduced a bill covering the proposed act.

Such a bill if it passes the legislature, will allow for establishment of local units known as counties. These may incorporate all or part of any municipality, school district or municipal hospital district.

An order-in-council would fix the number of councillors to be elected to the county council and would set electoral divisions within the county. Not more than 11 persons would be elected as councillors. It would have to be an odd number, according to the minister.

The chairman of the county council would have all the powers of a reeve, chairman of the board of school trustees of the school division and chairman of the municipal hospital board.

The appropriate minister would divide the assets and liabilities of any district, municipality or district school division that is included partly or wholly in the county.

Three Committees The county council would have the power to set up three committees, municipal, school and hospital. The municipal committee would have three councillors and not more than three electors named by council.

The other committees would have three councillors each, not more than three electors appointed and members from towns and villages within county boundaries. However, total membership on these two committees could not exceed seven.

A similar system is in operation in eastern Canada. It is understood the provincial government is considering an experiment with the county plan in the Red Cross district.

CRAWLING TO SAFETY. this young lady demonstrates the best way to escape from a smoke-filled corridor in case of fire. Red Cross self-help rules for a fire disaster stress: keep calm; make sure you crawl toward a safe exit; tie wet towel around mouth and nose to protect breathing; keep close to floor since smoke and heat rise. Lack of knowledge causes many deaths in disasters and accidents, says Red Cross National Disaster Services director.
